DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.

2. The following is an examiner's statement of reasons for allowance:

3. Claims 1, 7, 14, and 15 are allowable over the prior art because the prior art fails

to teach all the limitations of said claims, where the distinguishing feature recited is that

the claimed gas discharge lamps comprise a plurality of glass cylinders composed of at

least two different glass materials each for transmitting different wavelengths of

ultraviolet radiation where a tube connects pairs of the glass cylinders together.

4. A relevant prior art reference is USPN 6,771,024 to Sudou et al., which in Fig. 7

shows two glass cylinders coupled with a tube. However, the prior art including the

Sudou et al. reference fails to disclose that the glass cylinders are different types of

glass for transmitting different wavelengths of ultraviolet light.

5. Claims 2-6 and 8-13 are allowable by virtue of their dependency.

6. Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to

applicant's disclosure.
